

SIMPLY CLEVER

Škoda Octavia RS

Providing for your family and performing well at work enriches your life, but sometimes caring for others makes you forget to care about yourself. So step into an Octavia RS to taste the fun and freedom you've always cherished.

And relax, it's fast enough to ensure that you'll be back in time. With the Octavia RS you can be a boss, a husband, a father... and sometimes simply a man.

Retractable external mirrors automatically retract when holding down the "lock" button on the remote control.

The **front grille with an RS badge** and a **massive front bumper with an integrated spoiler** in the body colour are some of the unmistakable attributes of the Škoda Octavia RS. The **xenon headlamps with rotary modules**, equipped as standard with washers, have an exceptionally high luminous intensity plus remarkably improve visibility on bends. The **separate daytime running lights** take the form of independent **LED diodes** which offer brilliant luminosity and consequently ensure better visibility of the car. The lights are located above the **fog lamps in the RS design**, embedded in a **honeycomb screen**.

The **RS badge** looks great on the car's body rear, on the left side of the 5th door.

17" **Zenith** alloy wheels with 225/45 R17 tyres.

18" **Neptune** alloy wheels with 225/40 R18 tyres.

The **3-spoke multifunction steering wheel** is wrapped in black, partially compressed leather. It is adorned with an original RS plaque on the bottom part. Available only with automatic DSG (Direct Shift Gearbox).

Climatronic, dual-zone air conditioning with electronic regulation, including automatic regulation of the interior air circulation is, together with a radio or a navigation system, fitted in an elegant frame (Columbus navigation system on the photo).

The **RS interior** is available in black with sports front seats, which create the atmosphere of a racing car cockpit. An RS emblem is embroidered on the seat upholstery designed in a combination of fabric/Alcantara/black Vachette leather/artificial leather.

The **leather interior** in a combination of Feinappa leather/Vachette leather/artificial leather, which is optional equipment, is an effortless blend of sporting style and luxury. The plastic RS logo on the front and rear backrests forms an attractive detail.

Decorative door sill strips with an RS inscription also have a practical function: they protect the sills against mechanical damage.

The **noble steel foot pedal covers** as well as the removable woven carpets with grey stitching give the car's interior a more comfortable style.

The **automatic 6-speed DSG (Direct Shift Gearbox)** offers comfortable shifting without any performance loss, excellent car acceleration and favourable consumption when driven economically. Available for both petrol and diesel engines.

General information

ŠKODA SERVICE

Put your car in good hands. We give you good reasons to choose an authorised Škoda service partner.

We offer you first-class quality

Your car requires advanced technology. For this reason, all the Škoda authorised service partners have special tools and quality diagnostic systems at their disposal that in combination with the technological procedures prescribed by the manufacturer ensure the perfect functionality and reliability of your car.

Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in the car requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the staff of the authorised service partners in order to provide them with up-to-date information important for their activities.

Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is of great importance to us in the same manner as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control of the provided services.

Comprehensive range of services:

• Service inspections

For your car to remain in top condition and functional for a long time and, optionally, not to forfeit warranty, it is essential for your Škoda authorised service partner to perform regular service inspections. The service schedule informs you when the service inspection must be done.

• Body and paintwork service

Damage to the body and painted areas following an accident will be fixed by your authorised Škoda service partner in an expert manner, in accordance with information from the manufacturer, using Škoda genuine parts. This is important not only for your safety, but also for functionality and maintaining your car's value.

• Courtesy car

The authorised Škoda service partner can provide you with a courtesy car for the period of repair or service inspection.

• Pick-up and delivery service

If you are unable to take your vehicle to a Škoda service, an authorised Škoda service partner will arrange a date with you to pick up the car. The car will be delivered back after the service work has been completed.

The listed services represent only a part of the wide range of Škoda service offers, which may vary from country to country. Please contact your authorised Škoda service partner for further details and information on the range and specific conditions of services they offer.

ŠKODA GENUINE ACCESSORIES

Škoda Genuine Accessories offer you child safety seats, roof rails, alloy wheels, sunblinds and more. For more detailed information on the complete Škoda Genuine Accessories range see the individual Škoda model catalogues.

ŠKODA GENUINE PARTS

Safety

Škoda genuine parts are identical to those used during the assembly of Škoda vehicles. The use of first-class materials and technologies guarantees safe and worry-free driving.

Availability

Škoda Auto offers a comprehensive range of parts and equipment items that are used in the vehicle's batch production and does not merely focus on high-turnover parts. Škoda ensures the provision of genuine parts even after the relevant model is discontinued.

Long service life

The use of first-rate materials and production technologies in the manufacture of Škoda genuine parts ensure their maximum reliability and long life.

Environment protection

The Škoda Genuine Parts range includes exchange parts whose production has a low environmental impact in terms of waste, excess heat and water pollution.

INFORMATION ON THE INTERNET

Information is available at www.skoda-auto.com to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models.

ŠKODA FINANCE

ŠkoFIN offers solutions for both individuals and businesses. You can learn about the current offer through any authorised Škoda partner. The credit or lease contract can also be concluded online directly with the car dealer.

GLOBAL FLEET

The Škoda Auto Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of Škoda cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and, as a result, excellent value for money. You can find more information about our products and services at www.skoda-auto.com/fleet.

One of the most important goals of Škoda Auto is the development and production of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our Škoda cars are manufactured using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines of Škoda Auto meet the current emission regulations. We also offer diesel engines with Diesel Particulate Filters (DPF). All products made by Škoda Auto adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, Škoda cars meet technical, safety, quality and environmental requirements. Škoda Auto contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses Škoda Auto's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.

Some models in this catalogue are shown fitted with extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes (including changes of technical parameters or individual model equipment). Please consult your authorised Škoda partner for further details on standard and extra equipment, current prices and delivery terms and conditions. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
